Education

SIES COLLEGE OF ARTS, SCIENCE & COMMERCE Mumbai, India
Bachelor of Science in Computer Science | CGPA: 8.90/10.0 (4th Semester: 9.55/10.0) Expected March 2027

MAHARASHTRA STATE BOARD Mumbai, India
Higher Secondary Certificate (12th Grade): 70.67% | Secondary School Certificate (10th Grade): 78.00%

Technical Skills

AI/ML & Data: Scikit-learn, Pandas, NumPy, Qdrant (Vector Database), LiteLLM, RAG Architectures, Prompt Engineering

Languages: Python, SQL, JavaScript, HTML/CSS

Backend & Web Frameworks: Django, FastAPI, Flask, Node.js (Basic)

Frontend & UI: Tailwind CSS, Bootstrap, React (Basic), Alpine.js, Chart.js

Developer Tools: Git/GitHub, Docker, Supabase, PostgreSQL

Academic & Personal Projects

SMALLBOOK (AI RESEARCH & STUDY ASSISTANT) github.com/ShivamBhilare/SmallBook
Python, FastAPI, Supabase, Langchain, Qdrant, LiteLLM, RAG

- Developed an open-source NotebookLM alternative with multimodel support (OpenAI, Claude, Gemini, Ollama), customizable grounding modes, and cross-notebook document sharing.
- Integrated a study studio that automatically generates interactive quizzes and flashcards from uploaded documents, guaranteeing zero hallucinations.
- Engineered asynchronous background processing for large textbooks (200+ pages), ensuring seamless UI responsiveness during document indexing.

FINTUNE (PERSONAL FINANCE OPTIMIZER) github.com/ShivamBhilare/FinTune
Python, Django, Supabase, Gemini API, Scikit-Learn

- Built a personal finance platform with Django and Supabase, integrating Gemini 1.5 Flash for multi-modal (voice, receipt, manual) automated expense categorization.
- Engineered a Goal Path Simulator using Monte Carlo simulations and an AI Smart Budget Generator using Scikit-Learn and ARIMA modeling to dynamically optimize saving habits.

- Implemented financial gamification features (quests, XP, streaks) to drive user engagement and incentivize goal completion.

EXGROWTH (BUSINESS ANALYTICS) github.com/ShivamBhilare/exgrowth-analytics
Python, Django, Pandas, NumPy, Tailwind CSS

- Developed a business intelligence app using Pandas, NumPy, and RapidFuzz to automatically ingest, map, and transform raw sales spreadsheets into actionable insights.
- Designed an interactive KPI dashboard with Chart.js, optimized for near-instant load times by pre-computing analytics and caching JSON metadata in PostgreSQL.
- Implemented a hybrid cloud/local storage architecture using Supabase Vault to ensure secure file persistence and automatic local fallback during offline connectivity.

Leadership Experience

ZIEGERS TECH FEST, SIES COLLEGE Mumbai, India
Vice Chairperson 2026

- Directed a cross-functional team of 170 event volunteers and managed a core committee of 27 members to successfully execute the Computer Science department's tech festival.
- Designed the overarching event blueprint, developed the execution strategy, and allocated resources and technical solutions to subteam heads.
- Navigated dynamic logistical challenges by making rapid, strategic decisions and analyzing downstream impacts to ensure seamless event operations.

ZERODAY HACKATHON Mumbai, India
Team Leader (Team Nexus) Dec 2025

- Led a 4-person team during a 24-hour offline hackathon to conceptualize and develop FinTune, an automated personal finance platform.
- Directed the complete software development lifecycle by drafting the application blueprint, defining execution flows, and delegating technical tasks.
- Managed Backend, version control and codebase integration by overseeing the main GitHub branch and reviewing pull requests under strict time constraints.

Certifications & Coursework

Certification: The Joy of Computing Using Python (NPTEL)

Certification: Computer Network (NPTEL)

Certification: Claude 101 (Anthropic)

Coursework: Introduction to AI with Python (CS50)
